RESEARCH INTERESTS

- AI Agent
- Conversational AI
- Multimodal Learning

EDUCATION

The Catholic University of Korea

B.S. (GPA: 3.85/4.5)

- Business Administration (GPA: 3.92/4.5)
- Artificial Intelligence (GPA: 4.15/4.5)

Bucheon, Korea
Mar. 2022 ~ Expected Feb. 2027

RESEARCH EXPERIENCE

CUKNLP Lab | The Catholic University of Korea

Undergraduate Research Intern (Advisor: Kang-min Kim)

Bucheon, Korea
Mar. 2024 ~ Jul. 2025

PUBLICATIONS (* Denotes equal contribution)

Journals

[J1] Conversational AI for Child Abuse Detection Through Multistage Counseling: Model Development and Validation Study

JMIR

Hyun-Young Moon*, Youn-Gyu Jin*, Yoon-Ju Kim, Gwang-Cheol Lee, Hyeon-Taek Oh, Hyun A Kim, Dinara Aliyeva, Hyunjoo Na, Kang-Min Kim[†]

Conferences

[C1] Conflict and Overlap Classification in Construction Standards Using a Large Language Model

NAACL 2025
Industry Track

Seong-Jin Park*, Youn-Gyu Jin*, Hyun-Young Moon*, Choi Bong-Hyuck, Lee Seung Hwan, Ohjoon Kwon, Kang-Min Kim[†]

PROJECTS

AI Capstone Design, Fairytale Service for Children

Mar. 2025 ~ Jul. 2025

Developed platform demo for reading fairy tales and generating adaptive quizzes to develop logical thinking in children

- Conducted data preprocessing
- Improved quiz generation quality through prompt optimization per quiz type
- Enhanced character consistency in illustrations using Consistory

NLP Team Project, Language Rehabilitation Assistant Chatbot for Autistic Children

Sep. 2024 ~ Dec. 2024

Developed LLM-based conversational chatbot to elicit speech and support language development in autistic children

- Collected autistic children utterance data
- Designed multi-LLM pipeline using GPT-4o
- Refined model responses through prompt optimization

YPLabs Inc., Profile Image Evaluation System

Apr. 2024 ~ Sep. 2024

Analyzed dating application user data and developed a two-stage assistant model to validate profile image suitability and rate the images

- Conducted user data analysis and visualization
- Filtered inappropriate image using RetinaFace and mask detection models
- Trained ViT-backed classification model for three-class (A/B/C) profile image rating
- Improved performance with RetinaFace-based face region extraction preprocessing

AWARDS AND HONORS

Awards

AI/OR Business Challenge (Encouragement Award) 2024
The Korean Operations Research and Management Science Society

Market Kurly Data Analytics Competition (Excellence Award) 2023
Kurly Inc. & The Catholic University of Korea

Scholarships

Academic Excellence scholarship 2025-1

Top Academic Excellence scholarship 2024-2

SKILLS

Language

- Korean (Native)
- English (Fluent) TOEIC 905

Programming Language: Python

- **Frameworks:** Pytorch, Huggingface
- **Natural Language Processing:** LLM, SFT, Prompt Engineering
- **Others:** Pandas, NumPy, Scikit-learn, Matplotlib, BeautifulSoup, Selenium

EXTRACURRICULAR ACTIVITIES

Georgetown University English Language Course *Aug. 2025 ~ May. 2026*

- Enhanced academic writing, discussion, and presentation skills through coursework
- Served as Program Ambassador Representative; organized events and led team meetings

Business Data Analytics Club *Aug. 2025 ~ May. 2026*

- Executive member; led foundational Python study group and AI research paper seminar sessions
